## Smart WiFi Cloud Alarm System OCB-P50W-KIT 1

IOS

Android

Works with

WiFi alarm kit: 1\*hub(OCB-WPIR-PT5), 2\*contact sensor(OCB-MC09-W), 1\*motion sensor(OCB-DB06W), 1\*remote(OCB-RC06), 1\*doorbell push(OCB-DB06W)

The WiFi-enabled smart hub could be used for security alarm, elder care and doorbell alert. It allows you to get updates and change setting with smartphone anytime anywhere

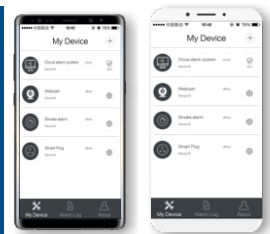

### WiFi enabled cloud security alarm system

- App-based control and monitoring, no monthly fee, no contrac.
- Know exact sensor that triggered in seconds
- Plug and play, easy setup in less than ten minutes
- Change settings and get live updates from miles away.
- View the entire system or a single sensor anywhere anytime.
- Easy to remove and take with you.
- Built-in-strobe siren, 110dB of volume.
- Customize your system, Expandable Supports up to 50 wireless accesories.
- Custom alert for each sensor/detector.
- Alarm history can be stored permanently.
- More than just an alarm system.
- Doorbell and Video monitoring are optional.

The WiFi-enable smart hub is the brain of the system, just plug into wall outlet, features a 110dB built-in strobe siren

**Be Aware Anywhere**  
Change settings and get live updates from miles away. App based control and monitoring. Know exact sensor that triggered in seconds. Custom alert for each sensor/detector. Alarm history canbe stored permanently

Send an instant notification, to family friends or caregivers in case of emergency

**Panic Alerts**

**Supports Multiples users**

Easy to share devices with your loved ones by scanning the QR code

**HD Video Monitoring Remote Control**

Use your phone for control the pan, tilt and view streaming video. Pan and tilt angle: Vertical 110° Horizontal 350°

## OCB-HD-6811 WIFI IP Camera *Works with*

- 720P, 1 MegaPixel indoor Plug&play WIFI IP P2P camera
- Smart IR, 10m IR distance. 3.6mm@ F1.6
- Angle of view: 92.5°
- Two-way audio, Remote Pan/Tilt control
- PC CMS and smartphone APP to manage multi-cameras.
- Motion detection alarm, Email alert(Gmail and Yahoo mail)
- FTP upload, remote snapshot and video record
- Support view on mobile phone and computer
- Multi-language, compatible with IE, Firefox, Safari, Google browser
- Pan:270°, Tilt: 90°, speed:15-70/S
- Full compatible with Onvif 2.0
- Scanning QR code to configurate the mobile phone software
- Maximally support 32G TF Card
- Android and iOS APP are available

Use your phone to control the pan and tilt, and view streaming video

IOS

Android

## OCB-DB06W Doorbell push button

### Features

- Wireless transmitting distance: 200m (in the open area)
- Transmitting frequency: 433.92MHZ
- Operating Voltage: 12V DC(1\*23A battery)
- Operating current: 1uA(standby), 50mA(Transmitting)
- Working temperature: 20 ~+50
- Working Humidity: 85%

*This button is an extension of the system, letting you know you have a visitor even if you are away from home or activating a panic alert in case of an emergency*

## OCB-RC06 Wireless mini motion sensor

Detect the movement of human

- Wireless transmitting distance: 80m (in the open area)
- Operating Frequency: 315/433MHZ
- Operating Voltage: 3V DC(1\*CR245 battery)
- Operating current: 5uA(standby), 15mA(Transmitting)
- Detect distance: 6M
- Working temperature: -20 ~+50
- Working Humidity: 85%

## OCB-MC09W Wireless Mini Magnetic Contact

### Features

- Wireless transmitting distance: ≤80m(in the open area)
- Transmitting frequency: 443.92MHz
- Operating Voltage: 3V DC(1\*CR1632 battery)
- Operating current: 3uA(standby),15mA (Transmitting)
- Installation gap: ≤1CM
- Working temperature: -20°C~+50°C
- Working Humidity: ≤85%

## OCB-PIR-B4W Wireless PIR motion sensor

### Features

- Power Supply: Dc 3V (AA 1.5V LR6 Battery x 2 pcs)
- Static Current: < 90uA
- Alarm Current: <9.5mA
- Transmitting Distance:<80m (in open area)
- Detection distance: 8m/110°
- Radio Frequency: 315MHz or 433.92MHz (+/- 75KHz)
- Housing Material: ABS plastic
- Operating Condition: -Temperature -10°C +55°C -Relative Humidity: < 80% (non-condensing)

## OCB-DB06W Waterproof Doorbell push button

### Features

- Battery in Transmitter: 12V 23A Alkaline Battery
- Power Consumption (Transmitter): < 10mW
- Wireless Range: 900 ft in Open Air; 100~500 ft w/ Metal Security doors and Walls
- Working Frequency: 433.92 MHz±280KHz
- Working Temperature: 30°C~70°C
- Case Colors:

## OCB-RC06 Remote Control

### Features

- Power Supply:
- Alarm Current:<7mA
- Transmitting Distance: 80m (in open area)
- Radio Frequency: 315MHz or 433.92MHz (+/- 75KHz)
- Housing Material: ABS plastic
- Operating Condition: -Temperature -10°C +55°C -Relative Humidity: < 80% (non-condensing)

## OCB-DB15 Wireless Doorbell

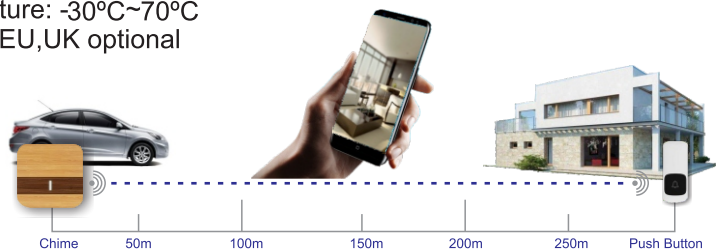

### Features

- Voltage of Plug-In Smart Receiver: AC 110V ~ AC 220V 50Hz/60Hz
- Battery in Transmitter: 12V 23A Alkaline Battery
- Power Consumption (Transmitter): < 10mW
- Wireless Range: 900 ft in Open Air; 100~500 ft w/ Metal Security doors and Walls
- Selectable Ring Tone: 52 Options
- Volume Range: 4 Levels (up to 110 dB)
- Expandable to Multiple Smart Receiver or Transmitter: Up to 50
- Working Frequency: 433.92 MHz±280KHz
- Working Temperature: -30°C~70°C
- Plug type:AU,US,EU,UK optional

### Up to 300m wireless range

The operation range can reach up to 300m and 100 - 150m with walls and doors.

## OCB-DB15 Wireless Doorbell

### Overview:

Wireless doorbell is an ideal for easily installing a doorbell without the hassle of wiring. Simply plug the receiver to an AC outlet and mount the transmitter where needed and you are ready to go! The doorbell features 52 ringtones and four levels of volume to suit your needs and can reach a distance of up to 1000FT when there are no obstructions

- 1.Up to 1000FT wireless range  
The operation range can reach up to 1000FT in the open air, and 300~500FT with walls and doors.
- 2.Never miss a visitor or delivery  
The maximum volume of 110dB can be heard up to 300FT away,you will never miss a visitor or delivery again.
- 3.Flexible,fits into any home and office

- 4.Easy to install and setup  
Just plug receiver into an electrical outlet (no batteries required for receiver) and mount the transmitter where needed.

- (1)Plug the plug-in chime into an outlet
- (2)Mount the puss button where needed.

### Main features:

- Stylish modern design fits into any home and office.
- 52 ringtones(16 chord)to choose from and 4 steps volume control(25~110dB).
- Simple to use and easy-to-install without the hassle of running any wires.
- With up to 300m operating range in open space,100m audible range.
- IP55 waterproof transmitter.
- Eye-catching inditor alerts you when the doorbell can't be heard
- Different quantity of push buttons(transmitter) and chimes(receiver) are free to pair together.
- Approved with CE,FCC,RoHS certification.
- The tingtone can be set to different for each push button.
- Using learning code to prevent interference from other wireless transmitters.
- Easy to choose your change and select your favorite ringtone with forward and backward button.
- Automatically save selected ringtone after power off.

### Specification:

Voltage of Plug-In Smart Receiver: AC 110V ~ AC 220V  
50Hz/60Hz(US,UK,EU,AU plug optional)  
Battery in Transmitter: 12V 23A Alkaline Battery  
Power consumption (Transmitter): < 10mW  
Wireless Range:1000FT in the Open Air; 100~500 ft w/ Metal Security doors and Walls  
Selectable Ring Tone: 52 Options  
Volume Range: 4 Levels (up to 110 dB)  
Expandable to Multiple Smart Receiver or Transmitter: Up to 50  
Working Frequency: 433.92 MHz 280KHZ  
Working Temperature: -20~50  
Plug type:AU,US,EU,UK optional

Works with

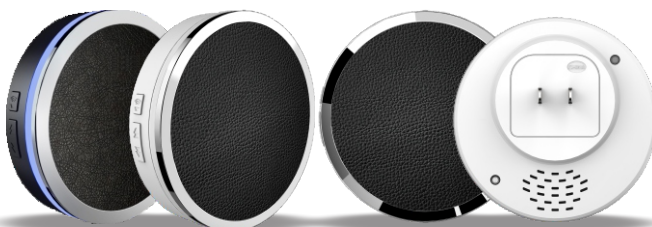

## OCB-Smart Home

### Smart WIFI cloud alarm system

#### Voice Controlled Device

The "brain" of the alarm system,with sound&flash alert, instant alert,view all devices status on APP anytime anywhere.

### Specifications:

- Operating Voltage: 100-240V AC 50/60Hz
- Wi-Fi standard: 2.4GHz 802.11b/h/n
- Stand-by power consumption: <2W
- Operating RF: 433.92MHZ
- The maximum number supported for wireless accessories 50
- Material: ABS
- Alarm volume: 90dB
- Working temperature: -20~+50
- Working Humidity: 85%
- Dimension: 81\*80.5\*28.5mm
- Weight: 150g

## OCB-Smart Home

### Smart WIFI cloud alarm system

The "brain" of the alarm system, with sound & flash alert, instant alert, view all devices status on APP anytime anywhere.

**Specifications:**

- Operating Voltage: 100-240V AC 50/60Hz

Voice Controlled Device

Make home security system be smarter and easier.

- Alexa voice control (arm, disarm, alarm, etc.)
- IOS / Android APP remote control.
- WiFi smart hub.
- Connect with doorbell, IP camera, door contact, smoke alarm and other accessories.
- Panic button.
- Plug and play design, easy for installation.

## OCB-IPC-3812 IP Cam Video Intrusion Alarm System

### Features

- H.264 Video compression
- 1280x720MP resolution at 30fps
- Dual IR cut filter for day and night vision
- Pan/Tilt from devices
- PIR body detection, effective distance 7mts.
- 3D Voice echo cancelation and noise suppression
- Video gravity sensing
- Support 8 zone 64 wireless alarm accessories
- Two-Way audio with built-in speaker
- SD card slot of video recording
- WiFi 802.11b/g/n wireless
- 110\*102\*115mm / 350g.

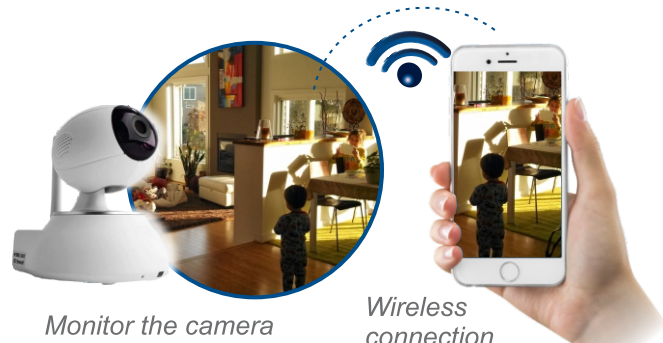

Use your smart devices to see and hear your private world wherever you are and in anytime of the day

\*IOS 6 / iPhone 4S, iPad 2, or later  
\*Android 2.3.3 CPU@1GHz, Memory@1GB, or above

### Remote Control

Monitor the camera anytime anywhere

Wireless connection

### Voice Control

Scare out intruder by voice or alarm

### Pan & Tilt

You can use your finger to control the camera easily, by moving your finger you can watch whole room from a distance

Works with

Works with

## Smart Home anywhere anytime

iOS/Android Support  
• iOS 8 / iPhone 4S, iPad 2, or later  
• Android 2.3.3 CPU@1GHz, Memory@1GB, or above

## VOICE-CONTROLLED DEVICES

"I am NOC, your home defender"

Alexa Arm NOC

"Alexa Disarm NOC"

## OCB-LC55

### Smart LED strip controller

*Wi-Fi access - control your lights by smartphone app through home wifi.*

**Features**

- Supports APP to control ON/OFF
- Dim/Brighten,Color,Timer
- Supports Alexa to voice control ON/OFF
- Dim/Brighten,Color
- Powered by DC12V

16 million colors, dimmable and adjustable Color temperature (warm 1700k-cool 6500K) Set time schedules and Countdowns.

## OCB-SPCB09

### Smart Power Control Box

**Features**

- Supports APP to control ON/OFF,Timer
- Supports Alexa to voice control ON/OFF
- One input:AC100V-250V 50/60Hz 10A
- Two output:AC100V-250V 50/60Hz 10A

- Hands-Free Voice Control with Alexa.
- Support smart phone APP control from anywhere.
- Smart timing/time delay function.
- Overcurrent protection.
- Multi - device intelligent linkage.
- One button setup, easy for installation.

## OCB-SWS10

### Smart wall socket

**Features**

- Supports APP to control ON/OFF
- Supports Alexa to voice control ON/OFF
- Two USB output:DC5V 2.1A

- Hands-Free Voice Control with Alexa.
- Support smart phone APP control from anywhere.
- Smart timing/time delay function.
- Overcurrent protection.
- Multi - device intelligent linkage.
- One button setup, easy for installation.

## OCB-SD11 Smart Dimmer

Wi-Fi access - control your lights by smartphone app through home wifihave dimmer switch.

### Features

- Supports APP to control ON/OFF
- Dim/Brighten,Timer
- Supports Alexa to voice control ON/OFF
- Dim/Brighten

## OCB-SOS-05

Waterproof outdoor socket

Smart WIFI socket, more durable with waterproof design.

### Features

- Supports APP to control ON/OFF
- Timer
- Supports Alexa to voice control ON/OFF
- One input:AC100V-250V 50/60Hz 10A
- Two output:AC100V-250V 50/60Hz 10A

-  Hands-Free Voice Control with Alexa.
-  Support smart phone APP control from anywhere
-  IP44 waterproof and dustproof design.
-  Smart timing/time delay function.
-  Overcurrent protection.
-  Multi - device intelligent linkage.

## Smart thermostat

Smart thermostatic control, make feel more comfortable.

-  Hands-Free Voice Control with Alexa.
-  Smart control air conditioner, fireplace, fresh air, purification, humidifying, dehumidifier and other air conditioning equipments.
-  Remote control it anytime and anywhere with smart phone, laptop and computer.
-  Smart learning and memory function, constant temperature and humidity control.
-  No noise, low power, more energy-efficient and environmentally friendly.
-  Compatible with most brands of air conditioner, underfloor heating, air purifier and other household appliances.

## Automatic Sprinkler controller

Water your flowers and plants just by asking.

-  Hands-Free Voice Control with Alexa.
-  Support smart phone APP control from anywhere.
-  Save water with timing/time delay function.
-  More personalized multiple scenes and mode setting.
-  Variety of accessories for option, one-stop solution.
